THE PLATFORM ADOPTED.

Pandemonium Broke Loose Several Times and there Was Difficulty to Maintain Order.

After the issue of the "News" last night, the State Democratic convention elected the following named gentlemen as delegates to the national convention: Senator Jos. L. Rawlins, Judge A. J. Weber, Mr. Alex. H. Tarbet, Hon. R. C. Chambers, Mr. Wm. F. Knox and Hon. Geo. W. Thatcher.

At the evening session Royal A. Barney, John G. M. Barnes, Mrs. Jos. M. Cohen, L. O. Hoffman, A. G. Horn and

We oppose both bills because they are designed to place the national banks in control of the finances of the nation, and to give the secretary of the treas-ury the power to create and perpetuate ury the power a national debt.

We hold that the tariff duties should be levied for the purpose of revenue, such duties to be so adjusted as to operate equally throughout the country, and not discriminate between class or section, and that taxation should be limited by the needs of the government, honestly and economically administered.

We are opposed to the application of any tariff laws to the products of Por-

to Rico, now a part of the United States, as being in violation of the federal Constitution, and discriminating against American citizens. We endorse the act of the Democrat-le legislature in submitting to the peo-ple the constitutional amendment look. ing toward direct legislation.

MONROE DOCTRINE.

We reaffirm that the Monroe doctrine, as originally declared, is a permanent part of the foreign policy of the United States, and must be maintained. We are opposed to alliances with for-eign powers, still believing with Wash-ington that "it is our true policy to steer clear of permanent alliances with any portion of the foreign world;" and that "we may safely trust to tempo-rary alliances for extraordinary emer-

the construction of the co Hon. William H. King, who was nominated for Congress by the Democratic convention last night, was a member of the Fifty-fifth Congress from county in 1863. After some years spent upon the farm he began his real education by attending the Universities of Deseret and of Michigan. He was admitted to practice law in 1886. In 1889 he moved to Provo where he resided until 1896 and then moved to Salt Lake, his present home. He has been elected to the legislature three times, was president of the council in 1891-2, was appointed associate justice of the supreme court of Utah in 1894, and was elected to Congress in 1896.

Judge King is an earnest and untiring free silver advocate and a lawyer and speaker of brilliant attainments. It is the firm conviction of his friends that he could easily have succeeded himself in the last Congress had he consented to accept re-nomination. He was, at the outset of the proceedings of the legislature, last winter, the leading candidate of his party for the United States senatorship to succeed Hon. F. J. Cannon, and had a strong following almost to the end of the session. At present he is successfully engaged in the practice of his profession in this city.

The Platform.

Chairman Moses Thatcher announced that the committee on platform and resolutions was now ready to report, and that Mr. M. W. Mansfield had been selected by his committee to read the report from the stage. Mr. Mansfield read as follows:

We, the Democrats of Utah, in convention assembled, reaffirm our allegi ance to the fundamental principles Democracy, as they are set forth in the Declaration of Independence. We hold that, after the lapse of a century and a quarter, it is still true that all men are created equal; that they are endowed by their Creator with certain inalienby their Creator with certain able rights; that among these are life, liberty and the pursuit of happiness; liberty and these, governments are that to secure these, governments are instituted among men, deriving their just powers from the consent of the coverned. We still believe in perfect that it is the duty of a just government to insure equal rights to all, and to grant special privileges to none.

Adapting these hallowed principles to existing conditions, we present the fol-lowing declaration of our position in the forthcoming special election for Representative to Congress:

FREE SILVER.

We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard sliver dollar shall be a legal tender, equally with gold, for all debts, and private, and we favor such legislation as will prevent the dem tization of any kind of legal tender money by private contract.

We are opposed to the policy of sur-rendering to the holders of the obligations of the United States, the option reserved by law to the government of redeeming such obligations in either silver or gold coin. We are opposed to the issuing of interest nearing bonds of the United States in time of peace and the trafficking therein by the

The federal Constitution conferred upon Congress the obligation and duty of colning money and fixing its value, and we protest against all attempts to transfer these functions of government to national banks. We demand that all paper money, made legal tender for public and private debts, shall be re-deemable in coin, and that all outstanding government bonds, not in terms made payable in gold, shall be payable in coin, gold or silver, at the option of the government, to be exercised by the secretary of the treasury in accord-

ance with the law. We are unalterably opposed to the We are unatterately opposed to the Senate and House bill in relation to the currency, now pending in Congress.

We oppose the House bill because, while making gold the single standard of the country, it also further degrades the silver money of the people, to a single redeemable promise to pay. to a single redeemable promise to pay. pose of the United States to provide for | tions, Messrs. Thatcher and Roberts

gigantic trusts and combinations, made possible by high protective and pro-hibitive tariffs. As a legitimate result of this legislation we point to the Standard Oll trust, the sugar trust, the steel trust and many other combit tions of corporate money power result-ing in oppression of the people. These great monopolies prevent honest and fair competition; they destroy smaller but legitimate and wholesome enterprises; maintain exhorbitant prices and rates, and illegally enrich those en-gaged therein. Their promoters corrupt state and national legislation, courts, elect State and national officers and dominate in all the business ave-nues of life. We favor effective legislation, both State and national, to destroy such monopolies and thereby se-cure individual opportunity and commercial freedom. We call special attention to the rapid

growth of trusts under the McKinley administration, and charge that the people who are and have been instrumental in the organization of great trusts are today and will be dur ng the campaign of 1900 managing and controlling absolutely the Republican party. We solemnly warn the people of our State that the growth and existence of combinations of capital for the purpose of controlling the products of the soil and man's industry, sible by Republican legislation, are tion of power in the few, and if mitted to continue, will eventually im-perit the life of the Republic.

CUBA.

The plighted faith of the United States to the people of Cuba must be observed in letter and spirit. The government of the island of Cuba should be placed under the control of the Cuban people without unnecessary delay.

EXPANSION.

We are opposed to imperialism and militarism, but favor commercial expansion and progress, not by force, but

y natural and peaceful means We are in favor of the kind of expansion which Jefferson advocated and practiced, and which is not incompati ble with our form of government plying to contiguous or neighboring ter ritory, whose inhabitants either immediately or ultimately, to be-come citizens of the United States. But we are opposed to wars of aggression peoples are brought under our dominion against their will. Such wars, under-taken in a spirit of commercialism, greed and covetousness, bringing to us olonies and subjects, instead of States and fellow citizens, are directly antagonistic to the idea that govern-ments derive their just powers from

the consent of the governed. PHILIPPINES.

In the rightful prosecution of a war begun in the interests of humanity, the ommercial, political and military key o the vast archipelago fell into the ossession of our land and naval forces and upon the conclusion of peace, the obligation to protect life and property and to preserve order, devolved upon our government. When armed resist ance to the authority of the United States shall have ceased within the Philippine islands, it should be the pur-

the organization of a government by the people of those islands, and Con-gress should at once announce that it is the intention of the United States, by such measures as may be deemed most expedient, to secure the blessings of liberty and free government to the peoples of the Philippines.

CENTRALIZATION

We reaffirm that government is insti-tuted only for the benefit and happi-ness of the people. We are opposed to the centralization of power in the na-tional government, and view with alarm the attempts of Republican administrations to enlarge the power of the execu-tive; and especially do we denounce the action of the secretary of the treasury in using the money of the nation to favor certain national banking insti-

We congratulate the State of Utah upon the record made by the officers and men who volunteered, some of whom were never called upon to leave American soil, but who have, whenever and wherever the opportunity has been afforded, bravely upheld the honor of our country and State. We assure the returned soldiers that the people will ever remember them for their courage and heroism. To the families, relatives and friends of those who gave up their lives for the honor of the day we ex-

and friends of those who gave up their lives for the honor of the flag we extend our profoundest sympathy.

To all the soldiers and sailors who at any time responded to the call of their country in the time of need, is due the lasting gratitude of the people. It is and must be the duty of the nation to provide for the wants of them and their families by a just and equitable system of pensions. of pensions.

We submit to our fellow citizens our platform of principles and appeal to them to pause and reflect. We direct their attention particularly to the record made by the Republican party during the past four years. The path of its progress is strewn with promises ever made to the ears of the people, but broken to the hope. It entered into the campaign of 1896 with loud protestations of adherence to the constitutional doctrine of bimetallism. It now begins the battle of 1900 with the apt allitera-tion, "Gold and Glory," as its cam-

paign cry.

Mad with the lust of conquest and power, it has launched the country upon a course of spoilation and wrong, which must be condemned by all who venerate the principles of the Declaration of Independence. We remind those of our fellow citizens, who, in 1896, abandoned that party and voted with us in support of the promise of the Chicago platform to restore silver to its place as money, that it was the Democratic party then which gave you the opportunity to vote in accordance with your convictions. in accordance with your convictions. The Democratic party again affords you such an opportunity and earnestly vites you to join hands with it in the defense of the rights of the people.

Resolved, That the Democratic party of the State of Utah, in convention assembled, solemnly affirms that the peo-ple of this State have kept faith with the nation, and repels upon their behalf all charges to the contrary as false and misleading. Therefore, we deplore the action of the Congress of the United States in refusing to administer the oath of office to the member-elect from this commonwealth.

OBJECTIONABLE CLAUSE.

Mr. Waldemer Van Cott moved, seconded by Mr. D. D. Houtz, that the last clause be expunged from the document. Mr. Van Cott made a logical exposition of his views in the matter and he was listened to with very close attention.

Hon. Moses Thatcher opposed the expurgation and in a forceful manner, gave his reasons for the stand he took and he defended the action of his comnittee in the report it had presented Mr. Alfales Young opposed the latter

clause of the platform.

Mr. D. D. Houtz favored the elimination of the objectionable clause. Mr. J. B. Timmony also favored the Mr. J. B. Timmony also favored the non-adoption of the paragraph, and he appealed to Mr. Roberts himself to know if it was not proper to refrain from making this reference to a disagreeable subject. Mr. Clark of Utah county thought

that if the Democratic party was not courageous enough to "deplore the most disgraceful outrage ever perpetrated a community," then the Democratic party would better disband. S. W. Stewart opposed the clause, deeming it unnecessary, to say the

Hon. Abel John Evans, who was the author of a resolution couched in stronger terms than the one under dis. cussion, defended the platform as re-

ported. Mr. E. A. McDaniel hoped that all who desired to speak would "do so now and forever hold their peace." He opposed the platform upon the grounds that it should be couched in stronger terms if stated at all. He argued that if it were intended to show the party's ntment to the agion of the of Representatives, then 'send Mr. Rob. erts back again and see if we can seat him. Let us re-elect him," continued Mr. McDaniel, "at each succeeding election from now to the end of time.

Mr. Thurman of Utah county opposed the obnoxious paragraph. Mr. R. W. Sloan defended the platform and denied that the proposition involved a dead issue,

Mr. Heber C. Jex of Utah county urged the adoption of the platform as t was reported.
Mr. Wm. O'Neil also defended the ommittee report, saying there was not a hamlet in the State which did not

egret the action of Congress, and there should therefore be no objection to say. ing so in the platform.

PANDEMONIUM.

The convention became in an up-roar when Mr. Hamer of Salt Lake introduced a substitue for the objectionable paragraph. The substitute was of such interminable length and lurid language that Mr. Roylance de-

Mr. J. R. Letcher declared that if "we undertake to answer all the imbeciles in and out of Congress we shall be perpetual session." He approved the paragraph, decrying the proposition to fly in the face of public sentiment of the

When Mr. Letcher stated that he was confident that Mr. Roberts himself had egretted the conditions which brought himself facing recent unpleasant developments, the house was precipitated into a perfect roar of applause, yells

Mr. Roberts arose and said: "The gentleman is most grievously and to-taily mistaken if he thinks that one lots of regret has ever entered my

Then the house went wild and the cervices of the sergeants-at-arms almost became necessary to suppress the numerous delegates who insisted upon demanding attention.

EXPURGATION DEFEATED. Upon a rising vote the proposition to

expunge the last paragraph was de-feated. The matter was not dropped here, however, for the opponents of the objectionable paragraph continued attempt by diverse means to have it eliminated. In the end the platform as reported was adopted.

After a Congressman.

The convention now proceeded to the selection of a nominee for Congressman, and it was decided to nominate by counties upon roll call.

Beaver resigned her right in favor of Salt Lake, whereupon Hon. . O. Rideout nominated Hon, Wm. H. King. Mr. Waldemar Van Cott, in a neat speech, nominated Mr. David C. Dun-

Mr. A. H. Snow of Boxelder county placed in nomination Hon. Henry P. Henderson. As the names of the remaining coun

ties were called there were numerous eulegistic seconds of the three nomina-

espousing the cause of Mr. Dunbar, and it was late when the convention came to balloting.

F. W. Beane Says Fred Dubois Will be the Next Senator.

Hon. Frank W. Beane, of Blackfoot, Ida, a member of the national Democratic convention, is in the city on personal business. Mr. Beane says the fusion of all the silver forces, Democrats, Populists and Silver Republicans in Idaho is necessary for success. The disbanding of the Silver Republicans in Fremont county, says Mr. Beane is not significant and will not injure the cause there. In Mr. Beane's opinion Fred K. Dubois will certainly be elected as senator from Idaho, and a fusion silver ticket will carry the State.
